

Cave (Room A)

You appear to be in a dimly lit cavern. A large river of pure water flows through part of it. You see a shadowy figure on a small boat out on the river. They don't seem to pay any attention to you.

An endless supply of stone clubs are scattered around, and you also see some bowls you can fill with fresh water.

If you swim in the river, read the back of this sign.

The current is too strong for you. You
drown and die.
