

Desert (Room B)

You appear to be in a desert on a cliff. All of the sand is a brilliant black, and the sky is perfectly dark except for piercing bright stars. On one side mountains loom above you. The area looks dangerous, and the cliff ledges seem unstable and slippery.

There is an endless supply of obsidian daggers scattered among the dunes.

If you explore the area, read the back of this sign.

You slip on a cliff ledge and plummet to your death.
